

1

Вычислите: $\frac{1}{4} + \frac{5}{6} - \frac{1}{12}$

$$\frac{1}{4} + \frac{5}{6} - \frac{1}{12} = \frac{3}{12} + \frac{10}{12} - \frac{1}{12} = \frac{12}{12} = 1$$
