

2. Вычислите: $152 - 7 \cdot (14 - 5) + 4 \cdot 19$

$$152 - 7 \cdot (14 - 5) + 4 \cdot 19 = 165$$

- 1) $14 - 5 = 9$
- 2) $7 \cdot 9 = 63$
- 3) $19 \cdot 4 = 76$
- 4) $152 - 63 = 89$
- 5) $89 + 76 = 165$
