

Что больше  $(1 - 1234/1235)$  или  $(1236/1234 - 1)$  ?

$$(1 - 1234/1235) < (1236/1234 - 1)$$

$$1235/1235 - 1234/1235 = 1/1235$$

$$1236/1234 - 1234/1234 = 2/1234 = 1/617$$

$$1/1235 < 1/617$$
