

Вычислите: $\frac{15 \cdot 6}{9 \cdot 30} + 3 \frac{1}{3} : 100$

$$15 \cdot 6 / (9 \cdot 30) + (10/3) / 100 = 11/30$$

$$15 \cdot 6 / 9 \cdot 30 = 90 / 270 = 45 / 135 = 9 / 27 = 1/3$$

$$10/3 \cdot 1/100 = 1/3 \cdot 1/10 = 1/30$$

$$1/3 + 1/30 = 10/30 + 1/30 = 11/30$$
