

Вычислите:  $\frac{12 \cdot 5}{15 \cdot 24} + 4\frac{1}{6} : 100$

$$12 \cdot 5 / (15 \cdot 24) + (25/6) / 100 = 5/24$$

$$60/360 = 1/6$$

$$25/6 \cdot 1/100 = 1/6 \cdot 1/4 = 1/24$$

$$4/24 + 1/24 = 5/24$$
