

```
#include <unistd.h>

void print_memory(const void *addr, size_t size);

int main(void)
{
    int tab[10] = {0, 23, 150, 255,
                  12, 16, 21, 42};

    print_memory(tab, sizeof(tab));
    return (0);
}
```
