

Заполнить массив каким-то числом

```
def printmas(mas):  
    i=0  
    while i<len(mas):  
        print(mas[i],end=' ')  
        i+=1  
    print('\n')
```

```
def fillmas(mas):  
    for i in range(len(mas)):  
        mas[i]=5
```

```
mass=[3,5,7,9]  
fillmas(mass)  
printmas(mass)  
print(mass)
```

```
def printmas(mas):  
    i=0  
    while i<len(mas):  
        print(mas[i],end=' ')  
        i+=1  
    print('\n')
```

```
def fillmas(mas,param):  
    for i in range(len(mas)):  
        mas[i]=param
```

```
mass=[3,5,7,9]  
fillmas(mass,8)  
printmas(mass)  
print(mass)
```
