

# Filling an array with random numbers within 100

```
void sumArray(int arr[], int length)
{
    for (int i = 0; i < length; i++) {
        arr[i] = rand() % 100;
    }
}
```

```
int main() {
    srand(time(NULL));
}
```
