```

        print(m[i],end=" ")
        i+=1
    print()

        event=random.randint(0,100)%3
        if event==0:
            m[i]=random.randint(0,100)
        elif event==1:
            m[i]=-random.randint(0,100)
